

CDP SNAPSHOT REPORT - CITIES 2020

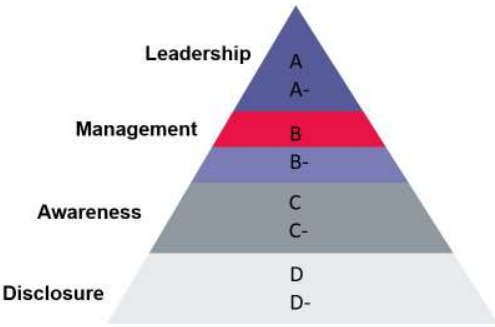

Alcaldía de Cuenca

Region Latin America
Country Ecuador
Final score B

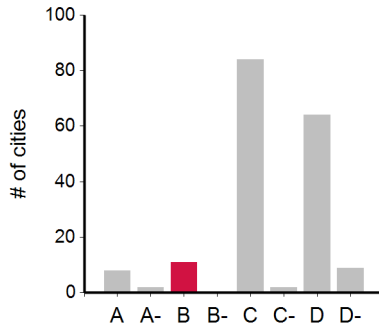

This snapshot report presents the score that Alcaldía de Cuenca received for its response to CDP's 2020 questionnaire. CDP uses the scoring methodology to incentivize cities to measure and manage environmental impacts. This report can be used as a tool for gaining an overview of environmental performance and how the city's response can be improved in the future. Responses are scored using the [2020 CDP Cities Scoring Methodology](#). Scores are private to cities, although CDP will recognize and reward the highest scoring cities.

REGIONAL DISTRIBUTION

The bar chart above shows the count of scores achieved by cities in Latin America.

The score for Alcaldía de Cuenca is shown in red.

GLOBAL DISTRIBUTION

The bar chart above shows the count of scores achieved by cities globally.

The score for Alcaldía de Cuenca is shown in red.

INFORMATION REPORTED

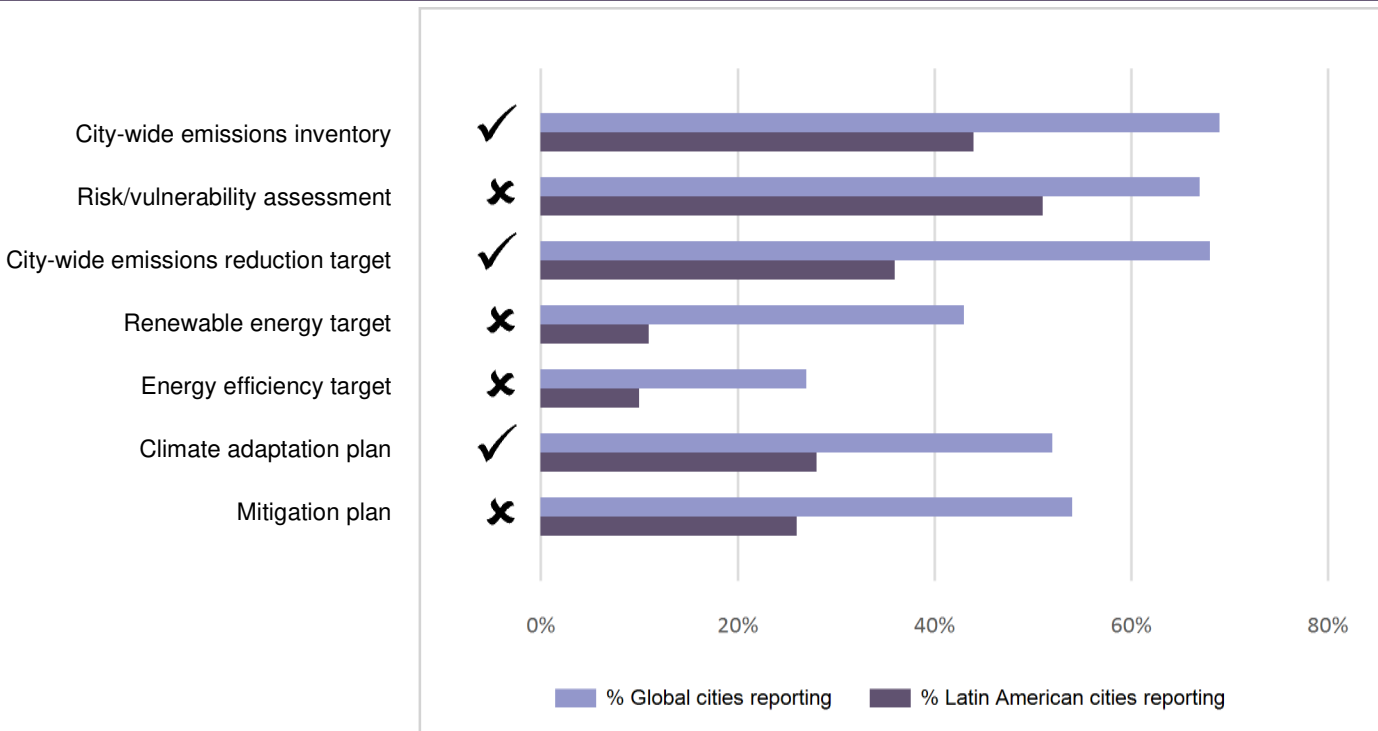

Your city is committed to the Global Covenant of Mayors for Climate & Energy

Is your city considering setting emission reduction targets?

This chart indicates what information was provided by your city in the CDP 2020 questionnaire. A "✓" symbolizes that your city has reported the information stated on the left-hand side while a "X" symbolizes that your city has not reported the information. The colored bars highlight the % of cities globally and within your region who have reported the information stated on the left-hand side in their CDP response.

THEMATIC SCORES

CDP has broken down your response into two main themes: *Adaptation* and *Mitigation* to assess your city's climate action. Note, cities that do not receive an overall score in Leadership (A or A-) will not qualify for an A in their Adaptation or Mitigation score. To see which sections of the questionnaire are assessed in either the Adaptation or Mitigation score, please review the [Scoring methodology](#).

Adaptation: Cities preparing for and adjusting proactively to actual or expected impacts of climate change

YOUR ADAPTATION SCORE

Alcaldía de Cuenca's Adaptation score is higher than the Latin America regional average of C, and higher than the global average of C.

A Management level city has assessed the impacts of climate change, an adaptation plan is in implementation and the city is taking action to adapt to the effects of climate change

Mitigation: Cities measuring and reducing emissions to enable a move towards net zero

YOUR MITIGATION SCORE

Alcaldía de Cuenca's Mitigation score is higher than the Latin America regional average of D, and the same as the global average of C.

An Awareness level city is assessing their climate impacts and is taking steps to undertake a city-wide GHG emissions inventory, action plan and emission reduction targets
